## Squatting Pan Storage-type Mobile Toilet

### Technical Parameters

**Material:** 100% brand-new

high-density polyethylene (HDPE)

**Size:** Length 1000\* Width 1000\*

Height 2350mm

**Product Weight:** 100KG

**Fresh Water Tank Capacity:** 45L + 40L

**Waste Water Tank Capacity:** 300L

**Accessories:** Equipped with flush pump, washbasin, crane hook, tissue box, coat hook, mirror, switch, door lock, male/female sign, etc.

### Standard Color System:

Door panel in blue, side panel in gray, floor in gray, Washbasin and wastewater tank in marble color.

Equipped with a marble-colored modified material base, Optional ordinary material base and stainless steel footplate are available.

Internal door latch

Washbasin

Squatting pan

Step on the toilet flush pump.

### Product Use Instructions

- Water consumption is reduced, with only 0.1-0.2 liters of water needed for each flush.
- The double-layer semi-transparent roof design ensures good light transmittance.
- It allows for quick assembly and disassembly, with a single unit taking only 8 minutes for both processes.
- The overall transportation is convenient, as it comes with built-in fork holes and lifting lugs, supporting forklift handling or hoisting.
- It is fully enclosed, has a high density, is easy to rinse, and has no peculiar smell.
- It has a long service life, with a designed service life of 10-12 years.
